

# PINK BUBBLE NADAČNÍ FOND

[WWW.PINKBUBBLE.CZ](http://WWW.PINKBUBBLE.CZ)

We support teenagers and young people whose lives have been affected by cancer. Adolescence is difficult as it is, and an oncological disease adds a heavy load... on the spirit as well as the body. At Pink Bubble, our mission is that not only the youngest kids but also older ones know that they have someone to lean on during this complicated phase of life. Be it the treatment itself, the recovery or their return to everyday life.

over for more...

# FUN AND EXCITEMENT

Small activities and joys for the patients at the time of treatment and convalescence help distract them and strengthen their hope and optimism.

# SUPPORT

Contributions to medical, rehabilitation and physical aids and services that support the treatment or help with improving the quality of everyday life.

# SELF SUFFICIENCY

Supporting further education or requalification, offering workshops, job placement and work skills – this all offers young cancer survivors more chances to stand up on their own feet again after completing their treatment.

# GRANT A WISH

The wishes our kids have are as diverse as the kids themselves. You can join us in making their dreams come true by supporting anything from electronic devices, travel, advanced studies or new cultural or social experiences.

**YOUR HELP WILL BE SO APPRECIATED!**
